An intensive introduction to the grammar of Old Norse-Icelandic. The diligent student will complete the course prepared to go toe-to-toe with the Icelandic sagas and our most important sources on Norse Mythology, dictionary in hand.

This course complements Scandinavian 3350: Norse Mythology and Medieval Culture, Scandinavian 5251: The Icelandic Saga, and the Swedish language sequence beginning with Swedish 1101. It will also be of interest to students of Old English language and literature.
